There are now nearly thirty poker rooms running in Kansas City. A gam bler who has been interested in an establish ment located just across the line for several years said this morning: "You will soon hear last year. The following are the clearings for a loud outcry from the good people of the consolidated cities. There was \$1,600 collected by the municipality 1887. of Kansas City, Kas., last month from the gamblers in fines. Now this revenue is shut off. The police have not been paid off for two months and the corporation is in desperate straits for ready cash. It will have to issue scrip. The stockmen and cowboys who spent their money across the line will now come over here to find games. It is the in-tention of two St. Louis boss gamblers to run faro games in that city next week during the races. They think they can safely do so un der Senate bill, No. 138, introduced by Mr. Moran and passed by the last Legislature. It provides for a fine of \$200 for keeping open a gambling house. They will do this for the purpose of testing this law."
